72 Year Old Reputation for Quality and Square Dealing

HELPFUL HINTS IN GROWING NURSERY STOCK

After nursery stock has been received, please follow closely all instructions given in the "How To Plant Booklet." It will save you time and trouble and money.

Timely suggestions are given in the care and pruning of all trees shrubs, and plants, as well as spraying and cultivation.

If you are planning to plant an orchard or just a small garden, all information as to the distance apart trees and shrubs should be set, will be found in this helpful little booklet.

If we can be of further assistance at any time, please feel free to call on us.

May we take this opportunity to thank our many patrons for their confidence in us during the past 72 years and you may be sure we will strive to warrant your continued confidence during the years to come. We have had the opportunity of serving your parents, your grandparents, yes, even your great grandparents, and that is a record of which we are justly proud. If you have been pleased, we shall appreciate very much if you will pass the good word to your neighbors.

There is a definite paper shortage this season and we may be short on catalogs, so after you have carefully looked over your copy, pass it on to a neighbor who may not have received one and we are sure he or she will thank you.

Sincerely yours,

FOREST J. SICKLES, Pres.

SYMPHONY. Mauve-rose, overcast soft coppery rose, with the sheen of Damask. The flower in maturing, acquires a silvery lilac and faint copper tones, very lovely but elusive and difficult to describe. Flowers are large, double, nicely formed and carried on heavy, sturdy stems, several to a spray. 2½-3 ft.

Chrysanthemum

BURGUNDY. Rich deep red of fine old wine. Fully double, perfect form. Early October. 2½ ft.

EUGENE A. WANDER. A big brilliant glistening golden yellow beauty, flowering so freely that the stocky plant is almost obscured by its branching clusters of big double flowers. Blooms by Sept. 20th.

MRS. P. S. DuPONT. The dominant shade is a soft peach tint, blended with mauve overtones, the whole overcast with an indescribable luminous sheen. The large full, perfectly formed flowers are carried on tall, branching stems. In flower by Oct. 2½ ft.

MT. RANIER. Very fine white variety. The best of all new white varieties. Early September. 18 in.

LAVENDER LADY. A lovely true lavender, no trace of mauve. Very double and free flowering.

Chrysanthemum

BRONZE CUSHION. Flowers open to a warm rich red bronze, then turning to a bronzy yellow with a light red center. Later lighten to a beautiful golden bronze shade.

RED CUSHION. Pure fiery red. Multitude of beautiful 2-2½ inch flowers.

YELLOW CUSHION. Pure golden yellow, very brilliant. Develops into large dense clumps, often measuring 24-30 inches across. Produces hundreds of strikingly beautiful flowers. Blooms first of Oct.

EVERGREENS

We have a very good supply of the various types of Evergreens and will be pleased to quote you on any types in which you may be interested. Due to the shortage of lumber, we cannot ship Evergreens balled in earth so we are compelled to wrap all evergreens in spagnum moss. If you are prepared to call at our nursery, these Evergreens can be purchased with the roots balled in earth and wrapped in burlap.
